

Introducing

This cart isn't just green on the outside

What do plastic lawn chairs, children's toys, and laundry hampers all have in common? They're all really difficult to recycle. With an industry total of 1.35 billion pounds of bulky rigid plastics recovered annually, Rehrig Pacific has pioneered innovative ways to incorporate these plastics back into its products.

Rehrig's Envirocore Cart contains 10% bulky rigid recycled plastics, and up to 40% post-consumer recycled content. The Envirocore Cart is not just sustainable—it's customizable, too. With the ability to choose a custom cart color, you'll be able to seamlessly retain your brand aesthetic.

Sustainable containers designed to move products efficiently.

Features & Benefits

- Made with 40% PCR including 10% Bulky Rigid plastics
- Available in 95 & 65 Gallon sizes
- Available in multiple colors
- 10 year warranty
- 100% Recyclable at the end of life
