

# SAFETY MONDAY

**DISTRACTED DRIVING IS A BARRIER TO ROADWAY SAFETY. DISTRACTED DRIVING CRASHES KILL APPROXIMATELY 9 PEOPLE EVERY SINGLE DAY.**

- Distracted Driving Can Be Eliminated!
- Pull over to send or receive a text.
- If you have a passenger let them do all the texting.
- Record a voicemail that lets callers know that you are driving and will get back to them as soon as you pull over.
- Set your phone to do-not-disturb and put a reply message that lets the person texting you know that you are driving, and you will respond as soon as you get pulled over in a safe spot.
- Finally, if you really cannot resist checking your phone then put your phone in a bag that is out of reach or in your glove compartment.

**NO TEXT OR CALL IS WORTH YOUR LIFE!**
