

SAFETY

MONDAY

Slip, trip and fall incidents can result in serious injuries. This is especially true in the winter months. Here are some tips and reminders:

- ✓ Always be sure that you have focus on walking and working surfaces.
- ✓ When exiting vehicles maintain three points of contact and ensure stable footing before releasing hand holds.
- ✓ Report unsafe parking lot conditions to your supervisor
- ✓ Wear proper footwear, fully laced up with good tread and utilize ice cleats in areas with significant ice.
- ✓ If possible, have some ice melt available on route.
- ✓ Keep truck steps clean and free of ice or snow build up.
