SAFETY

MONDAY®

**DRIVE LIKE
YOU WORK HERE**

**DROP IT
AND DRIVE**

**GIVE THEM
DISTANCE**

Time and time again, hazards appear on the road that you did not expect. Many times, you can see them in advance which allows you time to think and react appropriately. Other times the hazards appear without warning. When we see the hazards, regardless of if it's a construction zone, a police officer, or garbage truck drivers should slow down and move over. Staying focused on the road instead of looking at your phone, or radio, can be the difference between having an accident or not.

If you are working on the side of the road changing a tire, picking up trash, or surveying a job site. Are you wearing brightly colored reflective clothing? Bright yellows and oranges are visually attracting allowing you to stand out in most outdoor environments. Allow your movements to be seen. Be sure to watch for traffic before getting out of the vehicle or walking back to it.

Remember:
You can't get home unless you're safe
